

Welcome to Year 3

Hello!

My name is Miss Bell and I will be your Year 3 teacher. I cannot wait to meet you all!

This year will be the best ever! I can't wait to inspire you, challenge you, make you wonder and most of all have fun.

Our learning journey together will begin as Geographers in the Mediterranean where we will investigate the climate, food and currency. We will also wonder what makes the world angry - comparing volcanoes, earthquakes and floods.

As Historians we will dive into the Savage Stone Age and explore who lived in Britain first, before moving on to the Vicious Victorians and the Groovy Greeks!

As Scientists we will investigate how fast Usain Bolt is and explore our muscles. We will find out how magnets attract and how far you can throw your shadow!

Throughout this journey we will have the wonderful Mrs Ellwood helping us along the way.

However, you might be wondering... do I really know Miss Bell?

Hello there, my favourite subject is English—I am fascinated by words and I love getting lost in a gripping book. I love animals, especially dogs, I have a little Westie called Ginny (you'll hear lots of stories about her). My favourite colours are blue and green. I spend lots of my time outdoors walking as I love nature and like to keep active. I love having fun and laughing, so my favourite type of films are the funny ones. I adore food, I enjoy any food with cheese yummmmy!

Now you know all about me...so what about you?

I can't wait to find out more about you over the coming year. So I have set you a challenge.—'A ball about me.' I bet you are all so good at art so I am looking forward to seeing them when you have finished.

Aims for Year 3

Over the summer holidays I would like you to practice your 2, 3, 4, 5, 8, 10 times tables, to continue reading with fluency and confidence and to continue to practice your handwriting.

Take care and enjoy the summer holidays. I am so excited to be in Year 3 with you all.

Best wishes,

Miss Bell.
